OUR PRODUCTS: MADE TO SURVIVE.

People who rise to special challenges may also place particular demands on their equipment. That's why we from Esbit have always attached great importance to quality since the invention of our pocket stove and solid fuel in 1936. Following this engineering finesse, we have consistently expanded our product portfolio. Our outdoor products provide you security which you can rely on at any time. Especially the simplicity of our innovative products makes them so user-friendly.

Our claim: Mutual respect and friendly relationships.

Founded in Hamburg, we are an owner-managed family business in its third generation. This long-standing tradition over many years is an obligation for us. We do know the needs of our customers and are aware of the particular demands on our products under tough outdoor conditions.

Therefore, the cornerstones of our company are respect for the achievements of our customers and towards our business partners, the high quality demand on our products and long-term orientated acting and thinking.

After all, we are aware of our responsibility: Customers who decide on an Esbit® product shall be able to rely on it - any time and everywhere.

We wish you a great time with our products,
Philip & Robert Paap

Fold-away charcoal grill BBQ300S

On the beach or in the park, at the open-air concert or on the roof garden: There may be preferred seasons for BBQ-ing, but it's not restricted to special venues.

This stainless steel charcoal BBQ is therefore the ideal choice when you want flexibility for BBQ-ing. The small pack size allows for easy transport. The grate with removable handle can be adjusted in height (3 levels). Both the carrier bag and the charcoal bag are made of nylon with waterproof lining.

The shoulder strap is adjustable and has a comfortable shoulder pad. The carrier bag can be closed using the hook-and-loop fastener.

- BBQ300S at a glance**
- » Ideal when you are out and about or at home
 - » Charcoal bag with waterproof lining

Stand ST300S for BBQ300S

BBQ-ing is a successful combination of enjoyment and adventure. A little comfort during this original outdoor experience is no contradiction, however. The stainless steel stand for BBQ300S is the best proof of this. It provides a comfortable working height of about 61 cm (including charcoal grill), with a tray for storage.

The legs can be screwed in and removed easily, the nylon screw-bag includes four thumb screws (+1 spare). The nylon bag with zip fastener can be stored easily inside the charcoal BBQ.

Fold-away charcoal grill - extra small BBQ100S

Grilling is the most original method of cooking food. All our ancestors needed to do was master fire; cookware was as unavailable to them as knowing where to have the next meal. This extra small stainless steel BBQ box recreates the original freedom of grilling. Its compact dimensions make it easy to transport. The grill, which has 2 height settings makes it possible to prepare food at different heat levels. The handle can subsequently be removed for transportation. A nylon charcoal bag with waterproof lining for one portion of charcoal is included as well as the nylon carrier bag, which is also waterproof and lined. It comes with an adjustable shoulder strap with shoulder pad underlining the mobility of this BBQ box which is weighing less than 1500 g.

BBQ100S at a glance:

- » Ideal when you are out and about
- » Charcoal bag with waterproof lining
- » Charcoal bag can be stored inside the BBQ (Charcoal not included)
- » Easy assembly and disassembly

CALMLY AND POWERFULLY,

THE PADDLE BLADE BREAKS THROUGH THE SURFACE OF THE WATER.

THE EXPANSE OF THE LAKE IS BREATH-TAKING. NOW AND THEN, A CURIOUS FISH FOLLOWS YOUR BOAT.

MOMENTS HAVE BECOME HOURS, AND YOU'RE HUNGRY.

IT IS TIME TO LOOK FOR A LANDING.

Stainless steel food jug FJ500ML

Calming down, making yourself comfortable and enjoying a hot meal. Even better if you didn't have to cook it first. No problem for the double-walled stainless steel food jug FJ500ML, keeping dishes pleasantly warm or cold for a long time. The capacity is about 0.5l, with the lid serving as a bowl at the same time. Pressure is released by a press of a button.

Stainless steel food jug FJ750ML

A hot meal can be the highlight of any trip and a very important source of energy for the body. But if you're not planning to prepare your meal there and then, or if you're simply too tired, the double-walled stainless steel food jug is just what you need. It has a capacity of around 0.75l, keeping your meal hot or cold for many hours. Practically, the lid can also be used as a bowl. Pressure is released by a press of a button.

Stainless steel food jug FJ1000ML

It's been a long day, the trip was tough. When you have just enough strength for the absolute essentials, you'll be glad you have the double-walled stainless steel food jug in your baggage. Just open the lid, which you can also use as a bowl, and enjoy a hot meal even after it's been there for many hours. Keeps cold food cool for longer. The capacity is 1.0 l, pressure released by a push of a button.

Stainless steel food jug FJ750ML-OG

There are trips that are particularly demanding. Often, you don't even have the energy to prepare a hot meal. This is where this olive-green insulated food jug made from double-walled stainless steel comes into its own. It keeps meals of up to 750 ml hot or cold for many hours. The lid can also be used as a bowl, and pressure is released simply by pressing a button on the closure.

Stainless steel food jug FJ750ML-POLAR

A hot meal is just the thing when the body's calling for new energy. Just perfect if you've already prepared it at home and taken with you in this double-walled, polar white food jug. It holds 750 ml and keeps meals hot or cold for many hours. Practically, the lid can also be used as a bowl. Pressure is released by a press of a button.

Cookset with alcohol burner CS2350WN / CS2350HA

Especially efficient, large and yet compact: these are the benefits of the comprehensive cookset, which includes numerous accessories. The heat exchanger stands for efficiency, enabling meals to be cooked much faster and using less energy. 1800 ml as well as 2350 ml: The size of the pots in the set shows that this cookset is ideal for accompanied tours, where cooking that bit more is a good idea. The set also includes kettle stand, which provides the frying pan with additional stability. The pots and the non-stick coated frying pan, the windshield, stand, lid and also the gripper are all made of hard anodized aluminium, while the burner is made of brass. The whole set can be stacked into each other for transport. The folding handle on the flame regulator allows for easy killing of the flame.

Errors and omissions, misprints and technical modifications excepted. Printed colours may deviate from the original colours for typographic reasons.

Meshbag incl.

Suitable for use with PT750-TI (not incl.)

Emergency stove ES14G

A compact little miracle: Emergency stove incl. 3x14 g solid fuel tablets. There's no such thing as „no room“. At least not for this folding stove which really can be stowed away in any equipment. And it's ready to use in next to no time when it's needed - just fold up the side walls and get going - up to 15 times. Perfect for a hot drink or a warm snack, and ideal for everyone who likes to travel light. Delivery includes 3 solid fuel tablets which each burn for about 12 minutes.

ES14G at a glance:

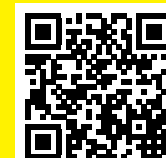

- » Suitable for pots, beakers and pans
- » Folds very flat
- » Weight: ~ 75 g
- » Includes fuel
- » can be used up to 15 times
